Dear Volunteer

**Summer Camp Visitors**

Thank you for your offer of help at the Varfurile Summer Camp.

Due to the rising costs of minibus transport and the difficulties of having people arrive during the camp series, it has been requested that visitors try and adhere to the following:

- Wilma and Vio have asked that the numbers of visitors for each camp series be kept to a maximum of 8 people for ease of accommodation etc. Please check with myself **before you book your flights** to see if there is anyone else booked in on the camp series that you would prefer.
- When you have booked flights etc. please email me with all the details so that I can chart them on a planner, because I have to send a copy to Wilma for the beginning of summer updating her with all the visitors and arrangements.
- Try to arrange travel so that you arrive on a 'cleaning day'. We know that this is very difficult because the flights to Timisoara only operate on Tuesday, Thursday or Saturday, but wherever possible perhaps spend a night in a hotel either at the beginning or the end of your visit so as to arrive or leave on the cleaning days.
- Please try not to travel as individuals, as this makes it very difficult and expensive to get transport from the airports to the camp for only one person.
- On a more personal note – please could you wear suitable clothes for the camp. It has been noted that some of the leaders and visitors are wearing 'inappropriate' clothes. Wilma and Vio have made a point of this at the training sessions that the leaders are expected to set an example to the children and have already had to ask some of them to change their clothes. As a visitor, please **do not wear** low cut tops or revealing clothing. Times are changing and they are finding that the young boys are now coming into contact with or being made more aware of worldly temptations.....!

Thank you for your co-operation in these matters.

Yours sincerely

V. White
